

CDMRI'11

MICCAI 2011 WORKSHOP ON
COMPUTATIONAL DIFFUSION MRI

September 22nd 2011, Toronto, Canada

CALL FOR PAPERS

Over the last decade interest in diffusion MRI has exploded. The technique provides a unique insight into the microstructure of living tissue and enables in-vivo connectivity mapping of the brain. Microstructural changes are often the earliest signs of disease or tissue regeneration, as well as being manifestation of physiological processes in normal tissue functioning. Tractography and connectivity mapping give fundamental new insights in neuroscience and neuroanatomy. The variety of clinical applications is expanding rapidly and includes detection of lesions and damaged tissue, prognosis of functional impairment and neurosurgical planning.

Computational techniques are key to the continued success and development of diffusion MRI and to its widespread transfer into the clinic. New processing methods are essential for addressing issues at each stage of the diffusion MRI pipeline: acquisition, reconstruction, modeling and model fitting, image processing, fiber tracking, connectivity mapping, visualization, group studies and inference. The workshop will give a snapshot of the current state of the art.

WORKSHOP TOPICS

Full-length papers are invited in (but not limited to) the following areas:

- Acquisition protocol design
- High angular resolution and general q-space sampling techniques
- Biophysical models
- Numerical simulation of diffusion process
- Tissue microstructure imaging
- Tractography and connectivity mapping
- Network analysis
- Registration, segmentation, and classification
- Visualization
- Validation
- Post-processing
- Group studies and statistical analysis
- Clinical applications

Papers accepted at the main conference may not be double-submitted to CDMRI'11.

ORGANIZERS

Gary Hui Zhang, Ph.D.
Nagesh Adluru, Ph.D.

University College London
University of Wisconsin-Madison

IMPORTANT DATES

June 10th, 2011:

Paper submission

July 18th, 2011:

Notification of acceptance

August 18th, 2011:

Camera-Ready Papers

September 22nd, 2011:

Workshop

PROGRAM

Paper Presentations:

8-12 oral presentations with ample time for questions; a few posters may be accepted.
